Education

Program	Institution/Board	%/CGPA	Year
<i>M.Tech.</i> (Biomedical Engineering)	Indian Institute of Technology Madras	NA	2026-28
<i>B.Tech.</i> (Biomedical Engineering)	Thapar Institute of Engineering and Tech	9.04/10	2022-26
<i>Senior Secondary School</i>	Holy Angels Convent School	96%	2021
<i>High School</i>	Holy Angels Convent School	97.8%	2019

Internships

- *Bureau of Indian Standards (BIS), New Delhi* Jan 2026 – Jul 2026
Research Intern
Worked on drafting an Indian Standard for a Rotator Cuff Repair Set under the MHD 02 Sectional Committee through standards review, technical research, and stakeholder consultation.
- *All India Institute of Medical Sciences (AIIMS), New Delhi* Jun 2024 – Jul 2024
Summer Research Intern
Performed histopathology and molecular biology techniques including H&E staining, PCR, IHC, FISH, and gel electrophoresis while following laboratory safety protocols.

Key Projects

1. *Capstone Project* Feb– Dec 2025
◦ Developed an IoT-based multi-parameter patient monitoring system with real-time monitoring and threshold-based alerts; presented the prototype at the *AICTE-IBIP* Final Hackathon.
2. *Movable Hand Exoskeleton* April–May 2024
◦ 3D-printed FDM-based hand exoskeleton for rehabilitation with smooth mechanical actuation.
3. *Innovation and Entrepreneurship Project* Jan–May 2024
◦ Conceptualized an EEG-based headgear system to detect and analyze brain signals and recommend personalized soothing content.
4. *Freshman Design Innovation Project* Jan–Dec 2023
◦ Designed a locally hosted web platform on Type-1 Diabetes Mellitus (T1DM) with integrated backend database for user data management.

Course Work

- Courses: Biomechanics, Biomaterials, Biosignal Processing, Medical Image Processing, ML; MATLAB, Python, SolidWorks

Technical Skills

- MATLAB, SolidWorks, Python, C, DBMS, Basic ML frameworks, Flashforge

Positions of Responsibility

- Student Placement Representative (SPR) for 3rd Year Biomedical Engineering (Sept 2024 – May 2025)
- Member, Student Consultative Council (SCC) Committee (Oct 2023 – May 2024)

Achievements/Awards

- Achieved **AIR 21** in GATE (Biomedical Engineering), 2025.
- Singh, I., **Kaur, G.**, Singh, D., Multani, T., and Kaur, R. (2026). *Temporal Feature Engineering for Wearable-Based Blood Glucose Prediction*. Research paper submitted to *Discover Computing* (Submission ID: 1175f396-d5bb-4da0-9ef7-0f350286b80b).
- Successfully completed the NPTEL certification course *Bioengineering – An Interface with Biology and Medicine* (March 2023 – April 2023).
